Reports of Royalist Schemes Lead to Strict Watchfulness.

Excitement Over the Panama Scandal Grows More Intense.

Complaint of Accused Senators. Evidence Said to Be Filmsy.

IBT ASSOCIATED PRESS. Paris, Dec. 21.—The excitement over the Panama scandals is to-day greater than ever, and the wildest reports are affoat of Monarchist plots and coming arrests. It is asserted that M. Herz has been in communication in London with agents of the Count of Paris, and that the exposure of the Thierree checks is directly attributable to royalist

Another rumor is that the officials and deputies, as well as civilians, connected with the Panama scandal, have had it intimated to them that their salvation lies in a espousal of roy alist schemes, and that all their offences will be condoned, if they will consent to

The great difficulty in the way of a royalist coup is that there are no signs of disloyalty in the army. M. de Freycinet, the Minister of War, is untouched by the scandals that have beamfrehed his colleague, Rouvier, and he has the devoted and loyal attachment of the Generals in higher command.

The military forces in the neighborhood of Parts are kept under the strictest discipline. and the greatest vigilance is exercised to reven t any tampering with the troops. The officers of the army are as a rule of Republican sympathies, the Royalist and Bonapartneuts - and especially the formerhaving been relegated on various pretexts to innacuous positions. The Government, it is said, has no doubt whatever of the fidelity of the troops, and would at once call upon the garrison of Parts in case of an outbreak on

the part of the it yalists. The zeal of the enemies of the Republic is also checked by the report, made current unofficially, but not "doubted by anybody, that in the event of an Insurrection martial law would at once be proclaimed, and every insurgent captured in arms either shot on the spot or executed after a summary court-

It is known that the officers of the navy those of the army, but no danger to the Republic is expected from them, as it is believed that they would hesitate long before risking the loss of their desirable positions.

The movements of the monarchist agitators are being carefully watched by agents of the Government in France, in England and in the passes of the Pyrenees, for fear that a Royalist movement might be attempted from that direction.

The Gaulois to-day publishes an interview with M. Andrieux, in which he says that the ten Deputies about to be prosecuted will almost complete the list obtained from the

stubs of the Thierree checks. Senator Deves, in an interview in the Matin, says that the course taken towards him was a shameful attack upon a man who had not yet been heard, that he had never mixed him self up in the Panama affairs and was confident of his ability to meet all charges.

Others of the accused and their friends assert that the Government is prosecuting some of the accused on the most flimsy evidence and with the hope of extracting, under examination, admissions that would justify
